

EHW

EUROPEAN
HYPERLOOP
WEEK

Introduction

Why we are

Our Speakers

Colin Lienhard, **Swissloop**

Ewa Radzanowska, **HYPED**

Ferran de Andrés, **Hyperloop UPV**

Joost Smeets, **Delft Hyperloop**

EUROPEAN
HYPERLOOP
WEEK

Our Vision

EUROPEAN
HYPERLOOP
WEEK

- The world needs **collaboration**
- The world needs an **alternative**
- The world needs **Hyperloop**
- Hyperloop needs **EHW**

Our Mission

EUROPEAN
HYPERLOOP
WEEK

- International **collaboration event**
- Union of **teams, companies and society**
- The search for **scalability and innovation**
- The search for **making Hyperloop a reality**

HYPED
HYPERLOOP EDINBURGH

Four student Hyperloop teams.
Making the future our present.

EUROPEAN
HYPERLOOP
WEEK

Teams, Companies and Society

The EHW is moved by the **teams**

The EHW is moved by **companies**

The EHW is moved by **people**

All of us.
Making the future our present.

EHW - Covid 19

The world is asking us to adapt.

And if we want a safe transport, we'll have to
make an event also safe.

That's why there are alternative plans.

This is our alternative.
Making the future our present.

The Event

EUROPEAN
HYPERLOOP
WEEK

Important Topics

EUROPEAN
HYPERLOOP
WEEK

- Where: **Valencia**
- When: **July 2021**
- R&R: **November**
- Intent to compete: **December**

EUROPEAN
HYPERLOOP
WEEK

The Event

One week dedicated to Hyperloop:

- **Presentations:** Exhibitors present their systems, demonstrators, concepts, etc.
- **Conferences:** Talks and round tables from industry and academia.
- **Design Competition:** Systems that stand out through innovation, feasibility, technical evaluation and public appeal have the chance to win one of six EHW Awards.

Timeline of the Week

The event will be a mix of **competitions and conference elements**, giving every attendee a chance to see both.

How to Compete

Participation open to any student teams, start-ups, foundations, companies, etc. who work on the Hyperloop concept.

Present your research, innovations and demonstrators wither virtually or physically.

Two different application categories to present with different safety requirements:

- **Showcase:** System not operated (powerless, no stored energy)
Few regulations and simple application process.

- **Demonstration:** System operated.
Enhanced safety precautions and detailed application process.

Each unique system (subsystem) needs its own application.

Application Timeline

	Showcase	Demonstration
November 2020: Stage 0	Registration - Receive rulebook	
December 2020: Stage 1	Intent to Showcase	Intent to Demonstrate
March 2021: Stage 2	Final Showcase Documentation	Final Demonstration Documentation
June 2021: Stage 3		Testing and Safety Documentation
July 2021	EHW 2021
